To the press and whom it may concern

ALMEX CORPORATION

ALMEX HOTEL CHECK-IN SYSTEM

MALAYSIA FIRST LAUNCH

BUSINESS AUTOMATION AND SIMPLIFICATION OF SELF CHECK-IN & OUT

ALMEX Corporation's Malaysian company ALMEX SYSTEM TECHNOLOGY ASIA (commonly known as ASTA), a USEN-NEXT GROUP, which boasts a large market share in the Southeast Asian Market. Has launched its first Malaysia automation self-check-in & out kiosk (APS-3300A-HI) which integrated with PMS at IXORA Hotel in Penang, Malaysia.

<Kiosk Features>

■ Stress-free from check-in to check-out

This kiosk not only has the functions of reception processing and room keycard issuance related to check-in operations, but also has the function for check-out operations and accommodation expenses reimbursement with credit card. You can complete check out smoothly and stress free.

■ Respond flexibility to walk-in customers and plan changes

Not only reserved guests, but also for walk-in guests without prior reservation, with this function, guests may use the hotel at any time by selecting the type of rooms and stay preference condition. In addition, it also copes with plan change by using the additional functions such as breakfast voucher, smoking room etc., which was not included in the contents at the time of reservation

■ Southeast Asia specific response

In addition, it has the function for passport scan, and it is also possible to read Malaysian ID card at the check-in, and with the installation of credit terminal and its system that is able to support general deposit settlement in Southeast Asia, credit including additional settlement at the check-out. The system also equipped with a mechanism that allows payment to be completed without proceeding to the reception counter, screen flows and functions that suited to the hotel operation in Malaysia.

With the introduction of this machine, the hotel is expected to improve the productivity of staff and the hotel by shortening the reception time and the stress of users at the time of congestion and reducing the reception service.
